

Welcome

Welcome to Trinity Beach State School. We are pleased you have chosen us to teach your child during their formative years.

During their years at Trinity Beach State School our children enjoy a wide range of subjects taught by professional and dedicated teachers. Our children are encouraged to sample and enjoy many other avenues of personal development, enrichment and growth.

Within the community, Trinity Beach State School has built a strong reputation for caring for its students. Every student is considered important and is given the support and encouragement needed to develop to his or her potential.

We would like this to continue with your own involvement in school life.

We hope you forge a partnership with your child's teacher that is based on trust, communication, commitment and mutual respect.

Our mission is to empower each child to develop to his or her full potential.
